CHARLES McALLISTER, School Board. DANIEL G. ANNIS,

REPORT OF THE SCHOOL BOARD.

BY DANIEL G. ANNIS,

By Request of the School Board.

In compliance with the Public Statutes your School Board would respectfully submit this report of the schools of Londonderry, for the year ending, February 15, 1902.

The spring term of twelve weeks was maintained in each of the ten schools by resident teachers, nearly all of whom had taught the same schools in previous terms. Usually the best results are obtainable in the spring term, as both the teachers and the scholars after the long vacation following the winter term, bring renewed life and vigor into the schoolroom, and the closing inspections proved that there were no exceptions to this general rule. We found that good progress had been made in all the schools.

Part of the schools in this spring term were given the opening inspection by the Rev. George A. McLucas, who was chosen as a member of the School Board for three years. But his auspicious services were abruptly brought to a close by reason of a call to preach at Salisbury, Mass., much to the regret of his many warm friends throughout the town.

The fall term was somewhat marred at the beginning by the resignation of Miss Martha J. Boyd, one of the most popular teachers in town, thus causing a change in the assignment of teachers. Rev. J. W. Francis, who had taught the spring term in No. 3, was placed in charge of the vacant District No. 1. Mr. Francis at the opening met with some friction, yet by the timely action and firm support of the School Board, augmented by the kind and hearty co-operation of parents and friends of the district, the school was carried successfully forward to the close of the year.

The fall term in No. 3 was placed in charge of Miss Frances E. Colby of West Derry. Miss Colby, a recent graduate of Pinkerton Academy, yet without experience as a teacher, at once manifested that kindness and fortitude in the schoolroom which easily won the hearts of her pupils. Her services continued the fall and winter terms with good satisfaction to the district and great profit to the scholars.

The school in No. 10 suffered a rupture in the fall term at the end of the fifth week by reason of the illness of Miss Alice B. Smith the teacher. With an interim of one week your committee succeeded in placing Mr. Jerome C. Mc-Murphy, of Derry in charge of the school which was carried forward to the end of the term, and also through the winter term with good results.

The School Board with pupils and parents of the district would hereby extend their sympathy and good wishes to Miss Smith in her misfortune and hope her health may be speedily restored, and strength given to resume her work again in the schoolroom.

In all the other schools the fall term was marked by a good degree of advancement which is pleasing to note.

A short winter term of four weeks was maintained in all the schools, being taught by the same teachers as in the previous term. There was no complete system of inspection carried out in this winter term, that work having been so fully gone over in the fall term just closing, this course seemed to be fully justified by reason of the able and competent corps of teachers placed in charge of schools. From the few visits made we learned that especial attention was given to the older scholars to proceed to more advanced work.

This we think cannot be too highly commended, for as the younger pupils do not attend at this season so constantly, there will be no neglect on their part. And while speaking of these things, we would take this opportunity to urge upon the older scholars in town, to strive more earnestly in their closing years of common school life to cover more ground in their studies, and to do more thorough work in the line of education. And the teachers should see to it that all desires in this direction on the part of the pupils, are fostered and encouraged in all possible ways.

And the attention of all parents and citizens of the town is hereby called to the 8th article in the school warrant, calling for a Superintendent of schools to the end that more efficiency and greater elevation, may be obtained in the management of our common schools.

During the year the introduction of a new reader has been completed which was partially begun a year ago. The "Columbian Series" have been exchanged for the "Stepping Stones to Literature Series." And your committee have now in contemplation an exchange in text books on Geography; also there needs to be a change in Physiologies and Histories.

We are pleased to note that a private term of six weeks has been taught in No. 7 since the close of the town school year, with good results to all parties, and speaks well for the interest in the cause of education in that section of the town.

REPORT OF BOARD OF HEALTH.

There have been but few contagious diseases in town the past year.

The sanitary condition of the town in general is very good. The health officers have had more or less trouble with nuisances.

All persons must remember that there is a fine if they leave or cause to be placed in or near a highway, street or public place, or shall allow to be exposed, unburied, any animal or other substance liable to become putrid or offensive, or injurious to the public health. It is hoped that every citizen in town will carefully read the following laws:

ARTICLE 1. "Every physician practising medicine in this state shall report at once to the local board of health every case of cholera, small-pox, typhus fever, yellow fever, diphtheria, membraneous croup, scarlet fever, typhoid fever, and measles, coming under his care or observation."

ART. 2. "When any householder knows or has reason to believe that any person within his family or household has either of the diseases named in article I, he shall, within twenty-four hours, if no physician is in attendance, give notice thereof to the local board of health of the town or city in which he resides, and such notice shall be given, either verbally to one of the health officers or by a communication addressed to the board of health and duly mailed, within the time specified."

ART. 12. "Any person or corporation violating the rules and regulations issued by the State Board of Health, shall be subject to a fine of not more than two hundred dollars, or be imprisoned not more than six months, or both, and it shall be the duty of any person to whom a knowledge of such violation may come, to notify the State Board of Health."

REPORT OF SCHOOL BOARD.

DANIEL G. ANNIS.

At the commencement of the school year it was decided that a thorough inspection of the schools in town should be maintained throughout the year, each committee to have in charge a certain number of schools, also that some general visiting by each member of the Board would be expected, the results of this course have proved to be satisfactory to the board.

A majority of the schools have been in charge of the same teacher throughout the year and, as might be expected from such service has brought good results. Nos. 4 and o were exceptions to the rule, owing to circumstances unavoidable, different teachers took charge in each term, which is almost sure to prove detrimental to schools in any district, yet in each of these cases the closing terms proved to be well managed and highly satisfactory to all parties. Sickness entered the ranks of our teachers in a few instances, causing some slight breaks in the work which are to be regretted by all. Yet taken as a whole, we are forced to the conclusion that through the persevering and earnest efforts on the part of the teachers to give, and the hearty and appreciative desire on the part of the pupils to receive instruction, a good amount of work has been done the past year, with commendable progress in the line of common school education.

As one year ago our sympathies were extended to our former teacher, Miss Alice B. Smith, in her failing health, now our hearts are bowed in sadness by reason of her removal to the "Great School" beyond, as also in the death of her younger sister, a former pupil in our schools. May the "Great Teacher" above send comfort to the family and friends.

During the past year, Maury's Geographies have been adopted in our schools, as also have Montgomery's History of the U. S., and Blaisdell's series of Physiology. A change in Arithmetic would now seem to be next in order.

Again your attention is called to the 8th article in the school warrant, as we can but feel that expert management of the work in the school room is the correct way to obtain the best results. And a vote to adopt the article, would place your School Board in a position, that if an opportunity was presented the coming year, the plan of a Superintendent of Schools might be entered upon as the law directs, otherwise no change could take place.

As we go to press we understand a private term of school is in successful operation in district No. 7, showing a good interest in the cause of education in that part of the town.

REPORT OF BOARD OF HEALTH.

During the past year Londonderry has been free from any serious epidemic of contagious diseases. Early in the year the whooping cough was quite prevalent in some sections, also chicken pox appeared in a few families.

No nuisances have been reported to this Board.

As the people of this town are mostly dependent on wells for water for household purposes, and as many of the wells are fifty or a hundred years old, we may be excused for calling attention to the fact that the short distance some of them are from barnyards, cellars and privies must in time render them more or less impure.

This condition in country towns is doubtless the frequent cause of cases of obscure illness, to say nothing of outbreaks of serions disease. Also lead in solution in the water is another cause of ill health. We speak of these matters so that those interested may investigate their surroundings.

The work of the State Board of Health in carrying out the provisions of the Pure Food Law is to be commended. The last issue of the Sanitary Bulletin contains much information of interest to all.

CHARLES S. GREELEY, SAMUEL P. ROBIE, of WM. RICHARDSON, M. D., Board of Health.

ANNUAL REPORT

OF THE

School Board

OF THE

TOWN OF LONDONDERRY

For the year ending February 15, 1904.

DISTRICT OFFICERS—YEAR 1903-4.

MODERATOR, DANIEL G. ANNIS.

CLERK, WILLIAM H. CROWELL.

TREASURER, WILLIAM H. CROWELL.

AUDITOR, SEDLEY A. LOWD.

SCHOOL BOARD.

MISS MABEL F. M. NEVINS, Term expires March 1904.

MRS. SARAH ANNIS, Term expires March 1905.

DANIEL G. ANNIS, Term expires March 1906.

TRUANT OFFICER, SIDNEY A. WEBSTER.

REPORT OF SCHOOL BOARD.

DANIEL G. ANNIS.

Another school year has been recorded, and we feel that some advancement has been made. If not all has been accomplished that might have been desired, we trust and believe that is for no lack of interest on the part of your committee in charge of the work. If the parents and citizens have come short of exerting that influence and support which is so important in maintaining the efficiency and advancement of our schools, may we still look for and receive that hearty sympathy and co-operation so much needed in the management of the public school.

All the schools in town have been in session thirty weeks during the year with the exception of No. 10, which had only twenty-four weeks, it being thought best to have no winter term in that district.

An examination of teachers was held in July at which most of our teachers took part, with generally satisfactory results. And there can be no doubt as to the great benefits derived from an exercise of this kind. We feel that the examination served as a needful stimulus in the school work for the remainder of the year, and that school boards would be justified in carrying out this annual examination as by law provided.

During the year your School Board made 75 visits in the

several schools in town, and we regret to add that some of these visits were not made for the regular inspection as to the good work done, but rather they were called in on account of some little irregularity in the conduct of the school, and such visits partake more of the nature of an investigation. In most cases of this character we are glad to note that the difficulties were readily overcome, and the sunshine quickly followed the storm. Yet better still were it, if the clouds had not risen. This again brings us to the great importance of union and harmony in the ranks of all true friends of education and the conduct and welfare of our common schools.

At the commencement of the spring term, Greenleaf's series of Arithmetic were introduced and adapted in place of those in use for the past ten years. The change has been heartily approved by both teachers and pupils.

A change in grammar might well be made next in order.

You will observe by the Financial Report that the appropriation for repairs of school houses has been exhausted by the ordinary repairs and the purchase of new seats for No. 3 and No. 6 houses, although the seats came too late to be of use the past term, it is expected they will be placed in the school rooms before the spring term begins. This completes the reseating of all the schools with the modern school seats thus rendering the home made plank seat "a thing of the past" in this town.

REPORT OF BOARD OF HEALTH.

During the past year our town has been practically free from contagious diseases, excepting chicken pox, and there have been no serious nuisances brought to our attention.

We would again remind the public of the necessity of having children vaccinated before attending school, and also would remind consumptives and others having chronic coughs of the advisability of burning their sputum, and not allowing it to dry and be blown about with the dust as that is the principle way in which tubercolosis is spread.

REPORT OF THE SCHOOL BOARD,

As we cast a look backward we feel that the standard of our schools has been raised the past year, that good work has been done by both teachers and pupils. The teachers have been faithful in their calling and have labored for the moral as well as the mental advancement of the children under their care.

That all of the schools have met with that success which we had hoped for, we would not dare to assert, yet the general results have been such that we are encouraged to look forward for greater advancement in the future.

The situation in the school known as No. 7, has been a particularly trying one. For the first part of the year the attendance at that school was so large that the school-room would not accommodate the scholars comfortably. After the opening of the spring term the board decided to devide the children of the higher grades going to the morning session, and those of the lower grades to the afternoon session. During the summer vacation, plans for the relief of the district were discussed by the board, and a meeting of the parents called that their views might be obtained. It was finally thought best to engage two teachers for the school, one for the forenoon and one for the afternoon, lengthening each session as much as possible and dividing the scholars as in the spring term, but at the opening of the fall term it was soon found that the number of pupils was about one-fifth less than in the spring term, and after four weeks only one teacher was retained, and the school was conducted in the usual manner. And this seems to be the best way to manage the school for the present, at least. Yet we would urge upon the townspeople to take some action for providing more room for this school.

The schools of Nos. 9 and 10 have become so reduced in numbers that the plan of conveyance was applied in the fall and winter terms. A team was engaged to convey the pupils of No. 10 to the No. 9 school room, which proved quite successful during the fall term, but as the cold weather came on the winter term did not prove to be so satisfactory. Especially, in these last named districts we feel compelled to most earnestly urge upon the parents the great need of REGULAR ATTENDANCE of the pupils at every session of the schools, there being a very large number of absences noticed in these districts.

While the School Board are endeavoring each year to secure the best class of teachers possible, very much depends upon the parents to see that all the scholars avail themselves of the benefit to be obtained by their CONSTANT ATTENDANCE.

The only change made in the text books during the past year was the exchange of the Raubs series of Grammars, for the Metcalf series. Globes were also purchased and placed in the schools.

You will notice that the "Roll of Honor" has been reduced somewhat from a year ago, in the larger number of terms especially. No doubt good reasons can be given in most cases for the falling off. Yet we believe it an object worth the striving for. The highest number of terms goes to Agnes B. Goodwin of No. 8.

By request of the State Superintendent of Public Instruction, an article is inserted in the School Warrent to see if the Town will vote to form a Supervisory District and employ a Superintendent of Schools as provided in Chapter 77 of the Session Laws of 1899.

REPORT OF BOARD OF HEALTH.

During the past year the town has been free from any epidemic of contagious diseases, only a few isolated cases of such diseases coming to our notice.

No serious nuisances have been reported to us. It may not be generally known that the Board of Health is required to disinfect houses in which deaths from consumption occur, in accordance with a law passed by the last Legislature.

REPORT OF SCHOOL BOARD.

We feel that the schools for the past year have made fairly good progress, and if not accomplishing all that might have been desired, their good standing and reputation in the past has not been allowed to lower or diminish.

The usual 30 weeks of schooling has been provided in the several sections of the town, with the exception of a few pupils living in that part known as No. 10, wherein the town does not own any school room. But conveyance was furnished for these pupils during the spring and fall terms, to school room No. 9, about three miles distance, thus giving them the benefit of 24 weeks of school during the year.

Still, the state of education in that section is in an unsatisfactory condition, and presents a problem yet to be solved.

Your Board would like to call the attention of the town to the fact that the government at Washington, D. C., has published a very instructive map of the United States and by the kindness of Senator Hon. Henry E. Burnham, through the agency of Reed Paige Clark a sufficient number of these maps have been presented free of cost to our town to supply each school room.

In regard to music being taught in the schools, as per vote at the last annual meeting, we have not made the progress we had hoped for. We have consulted with music teachers and learned that the expense of books and charts would be more than we thought it advisable to incur at this time, but we have considered the plan of using black boards

instead of charts for a time, and to purchase books in small numbers as required.

We will try as far as possible to have teachers that can teach music without neglecting other school work.

The only change in text books for the past year has been the introduction of the "Progressive" series of Spellers by J. N. Hunt in the place of Worcester's Spellers, which has been in use since 1887. And your board now feel that a worthy and well rounded list of text books are being used in our schools.

You will note, by reference to the financial report that quite a liberal amount of repairs have been made on the school buildings the past year. We think it wise that the school property be kept in good condition and that the citizens of Londonderry can always be able to point with pride to the neatness and good order of her school resources.

The chairman of your School Board for the past year, whose term of office expires with this current school year, feels it his duty and privilege to retire from all further public school work, and would most respectfully embrace this opportunity to return his sincere thanks to all who have so nobly sustained him in his eight years service.
